## A8009 Mini Brass Collector

### IMPORTANT Read before use

- **Maintain Clean Grounds:** The cleaner your ground is, the better the unit will operate. If you can, **mow it and blow it prior to cleanup.**
- **To Empty Your Basket:** Lift basket [G] with slits on the side. Dump basket of contents into any desired location. When empty, replace basket between grooves on machine.
- **Loose Wheels (Balls aren't being caught in wheels):** If you have loose wheels [A], use a 7/16" deep well socket wrench to tighten wheel drum located on the sides of the machine [J].
- **Loose Fingers:** If you have loose fingers, apply spacers to the finger shaft [D].
